PURPOSE

This brochure symbolises our gratitude to all our recruiters, with whom we intend to entrench our relations. We appreciate your trust in REVA University. We would like you to go through the brochure and have cognisance of what moulds a fresh entrant of REVA University into a methodical professional. We will be glad to assist you with further details and statistics to help you enhance your talent pool. We look forward to a mutually beneficial relationship we would share one day.

VISION

Striving for a symbiosis of Technological Excellence and Human Values. To arm young brains with competitive technology and nurture holistic development of the individuals for a better tomorrow.

MISSION

REVA University strives to set new benchmarks in imparting world class education to its students by ensuring inputs for professional excellence, interactive learning environment and industry orientation through its highly qualified faculty, staff and empowering infrastructure.

Overview

REVA University has been established under the Government of Karnataka Act 80 of the year 2012. The University is located in Bengaluru on a sprawling green campus; spread over 45 acres of land, built with the state-of-the-art infrastructure creating an environment conducive for higher learning and research.

The Founders of REVA University believe in the motto of 'Knowledge is Power'. Driven with philanthropic vision and missionary zeal, the campus is built to transform students into outstanding citizens. The University prides itself in contributing to every student's holistic development. The University currently offers 18 full-time Postgraduate programs, 5 part-time Postgraduate programs, 15 Graduate Degree programs and several Postgraduate Diploma programs in Engineering, Architecture, Science & Technology, Commerce, Management Studies, Law, and Arts & Humanities. Above all, the University facilitates research studies leading to a Doctoral Degree in all disciplines. The programmes offered by REVA University are well planned and designed based on the in-depth analysis and research with emphasis on knowledge assimilation, practical applications, hands-on training, global and industrial relevance, and their social significance.

REVA University believes in preparing students through the Choice Based Credit System (CBCS) and Continuous Assessment and Grading Pattern (CAGP) of education. The CBCS & CAGP pattern of education has been introduced in all programmes to facilitate students to opt for subjects of their choice in addition to the core subjects of the study and prepare them with the required skills. It also provides opportunities for students to earn more credits and thereby acquire additional Proficiency Certificates and Diplomas.

Highly qualified, experienced faculty members and scholars from reputed national and international institutions along with industrial and business experts have contributed in preparing schemes of instruction and curricula for these meticulously designed programs. REVA University strives to strengthen its team of committed faculty members and staff who ensure that this journey of enlightenment progresses smoothly for every student.

The ever-evolving collection of books, journals and digital content in the library and the latest IT infrastructure, ensure that students will get information in every form at their disposal. REVA University is renowned for its well-equipped laboratories, which aid students in their learning and research. The custom-built teaching facilities and classrooms, the indoor and outdoor sports and cultural facilities, the multi-cuisine food court, and campus stores provide students with an encouraging learning environment.

Ranked amongst the TOP 50 Universities

2019
Ranked 11th in Top 100 Private Engineering Institutes

2019
Ranked 3rd under "The most promising B – Schools" All India National Survey

From Chancellor's Desk

Dr. P. Shyama Raju

Founder and Chancellor,
REVA University

There was a time when survival depended on just the realisation of physiological needs. We are indeed privileged to exist in a time when 'intellectual gratification' has become indispensable. Information is easily available for the soul that is curious enough to look for it. Technological boons enable information available anywhere, anytime. The difference, however, lies between those who look for information and those who assimilate knowledge.

It is deemed virtuous to serve seekers of knowledge as educators. REVA University wants to empower every learner who chooses the University to build his or her knowledge. Driven by our founding philosophy of 'Knowledge is Power', we believe in building a community of perpetual learners by enabling them to look beyond their abilities and achieve what they assumed impossible.

India has always been viewed as a brewing pot of varied talent, incredible intellect and immense potential. All it takes a turn with the power of a spark of opportunity. Being a student at REVA University is an exciting and rewarding experience as it offers opportunities to nurture abilities, challenge cognisance and gain competence.

For any University, the secret of excellence lies in the transitional abilities of its faculty members and its facilities. I am always in awe of the efforts that our academic board puts in to develop the team of subject experts at REVA. My teacher colleagues understand our core vision of empowering our future generation to be ethically, morally and intellectually strong. They practice the art of teaching with a student-centric and transformational approach. The excellent infrastructure at the University, both educational and extra-curricular, magnificently demonstrates the importance of ambience in facilitating focused learning for our students.

A famous British politician and author of the 19th century - Benjamin Disraeli, once said 'A University should be a place of light, of liberty and of learning'. Centuries later, this quote still inspires me and joins the team of enlightenment and shine in your career. I believe in teamwork to build successful institutions. I welcome you to REVA University where we mould your future with values, wisdom and knowledge.

Message from Dean - TPP

Dr N Ramesh

Dean,
Training & Placement
REVA University

The Training & Placement (T&P) Cell of REVA University is the chief facilitator for the students to obtain placements best suited to them and primarily liaisons between Industry and the Institute. The goal of Training & Placement Cell is to provide world-class training to REVA University students. The Cell has emerged as a favoured destination for many national and international organisations who come back year after year to recruit fresh talents nurtured at the University.

The Training & Placement Cell is dedicated to motivate and help the student community towards their campus placements and industrial training. This is done by training students from first year onwards focusing on motivational skills, communication skills, interpersonal relationships, leadership qualities, group discussions and interview techniques. Additionally, the Cell also provides the required infrastructural facilities to conduct group discussions, tests and interviews besides catering to other logistics.

The database of the students is managed by the cell, which plays a crucial role in placing the alumni too in a suitable role whenever required.

Employability Training for Student's

Role of Placement and Training

We at REVA University have an exclusive employability training program designed for our students, imparted by experts in the field. This course at REVA would help students to develop competencies and technical capabilities. It would help them to develop technical, aptitude, interpersonal, communication, teambuilding and leadership skills, for greater productivity and performance and above all employability.

The course structure is progressive in nature and would see a rise in level as each semester progresses. This has been done keeping in mind their present requirement and making them ready for a challenge down the line. Initially the program would cover all the essential ingredients which propels the student's desire to be an entrepreneur, to pursue higher studies or to get employed in a corporate field. The industry is keen in absorbing the best talents from the University. Thus, also arises the need of building an exquisite personality and ability to make lasting impressions through the perfect conduct. The employability training sessions would cover everything that would enable a student stand out in a crowd of career builders. It is designed to help them gain the personal insight and practical skills to develop and implement a mental framework for a good and professional approach to their career.

The main objective of these trainings would be as follows:

- Enhance and improve employability skills.
- Ability to communicate effectively with co-workers, employers, clients and customers.
- Improve Personal and professional effectiveness.
- Helps in upgrading Skills.
- Development of presentation skills to promote more successful projects.

Training at REVA is quite different from conventional methods of training. Students are trained on the basis of industry requirements i.e, both technical and soft skills. By conducting a lot of technical activities related to behaviour, the trainer helps in bringing out behavioural changes among the individuals. During this training, real life environment is created and participants are trained in a simulated environment through various activities

- Single and Group Presentations
- Team Building activities
- Group Discussions
- Role Plays
- Practical exercises
- JAM Session

Learning Outcome

The most important thing that the participants get out of the session is the confidence to take part in any competitive or employability exam and communicate effectively with anyone. They show the eagerness to enter into a discussion with innovative ideas and most importantly with a new range of pleasing and confident vocabulary. Their improved knowledge takes them to higher motivational levels and their overall performance improves. It is believed that the participants will have a better vision, self-awareness and direction towards organisational and personal goals. They would discover the importance of a well-groomed and complete personality, which helps in conquering pursuits. The participants would learn to handle time in a better manner and to their advantage through various activities and interactive exercises. The objective is to encourage them to have a focused goal. To sum up, they would know different ways to overcome barriers to achieve their personal and professional goals.

Admission, Curriculum, Courses and Internship details.

Admission

Admissions to any Graduate, Post Graduate, Post Graduate Diploma and PhD programs of REVA University are strictly based on merit. REVA University conducts a series of entrance examinations which include:
