

**University Industry Interaction Centre in association with  
School of Mechanical and Mechatronics Engineering, REVA  
University**

**Organized IEDC Program on**

**“Frugal Innovation and Social Entrepreneurship and  
Innovation Risk Diagnostic”**

**About the  
event**

University Industry Interaction Centre in association with **School of Mechanical and Mechatronics Engineering** organized IEDC Program on “**Frugal Innovation and Social Entrepreneurship and Innovation Risk Diagnostic**” on 14<sup>th</sup> October 2020 from 9:00AM to 4:00PM for 3<sup>rd</sup> semester students of **Mechanical and Mechatronics Engineering**.

Dr. K S Narayana swamy sir, Director, School of Mechanical Engineering, spoke with students and highlighted the importance of Innovation and Entrepreneurship.

The event was conducted with two specific session, details are as mentioned below:

<b>IEDC Programme</b>	
<b>Morning 9AM to 12PM</b>	<b>Afternoon 1PM to 4PM</b>
<b>Topic:</b> Frugal Innovation & Social Entrepreneurship	<b>Topic:</b> Innovation Risk Diagnostic
Mr. Dinesh Bhatt	Mr. Koppada Kiran

**About IEDC:**

The Innovation and Entrepreneurship Development Centres (IEDC) are platforms set up mainly in Engineering colleges with an aim to provide students an opportunity to innovate and experiment.

IEDCs works as the first launch pad for a student’s entrepreneurial journey and provide them with access to cutting edge technology, world class infrastructure, high quality mentorship, early risk capital and external connects.

IEDCs act as common platforms in academic institutions to nurture innovation and entrepreneurship culture among student Fraternity.

**Organized By**

University Industry Interaction Centre in association with School of Mechanical and Mechatronics Engineering, REVA University

**School  
Coordinators**

Prof. C Rajesh Babu and Dr. Pramod Kumar Kataraki

<b>UIC Coordinator</b>	Ms. Vanitha R
<b>Date</b>	14-10-2020
<b>Targeted Audience</b>	3 <sup>rd</sup> Semester students from school of Mechanical and Mechatronics Engineering

## About REVA NEST

- **Vision**

To create an ecosystem that will foster **and support entrepreneurship** by translating innovative technology ideas into successful ventures offering products, processes and services that greatly benefit the society at large.

- **Mission**

To provide conducive support system that helps in nurturing technology based innovative start-ups towards sustainability and scalability

## REVA NEST- A Journey towards nurturing startups

- We at REVA NEST, a Technology Business Incubator established at REVA University campus aims to build the entrepreneurial eco system by empowering and nurturing student start-ups and incubating innovative technology based start-ups. *(It is registered as RAY Foundation, section 8 company under Companies Act 2013. RAY – REVA Aspiring Youth Foundation)*
- The University **faculty members and industry mentors associated with REVA NEST** advice incubatee companies on Technology Product Development, Patenting, Commercialization, Marketing, Business Set up and Operations, and Human Resource Sourcing and Development.
- REVA NEST is **recognized by MSME**, supported by **Government of Karnataka, Department of Science and Technology**. REVA NEST has access to universities full equipped state of art Centre of Excellence in the sector of Electronics and Communication, Design & Manufacturing, Construction and Bio-technology. It offers Creative and Innovative program for aspiring entrepreneurs in the thrust areas of Internet of Things (IOT), Electronic System Design and Manufacturing (ESDM), Robotics & Intelligent Systems, Clean Energy, Art and Design.
- REVA NEST incepted on **October 15, 2018**.
- **NEST policy** document is framed : has a set of policies and guidelines to be adhered before as an incubate with business potential and revenue in mind.
- **Marketing Material** : NEST has it's own brochures, flyers, magazines and marketing material for start-up organizations.
- **Virtual & Social media Presence** : NEST has it's own website ([www.revanest.com](http://www.revanest.com)) and social media networking site impression.

THANK YOU

# Pitch Day

- 1) Skykrafts Aerospace Technologies Pvt. Ltd. : AAHA Drones for agricultural usage
  - 2) Dhanaina Technologies Pvt. Ltd : An enterprise resource planning software, Gettoil
  - 3) Incubation Policy Document is released
- NEST Organized Pitch Day for Start-up Companies on 10<sup>th</sup> June 2019 to demonstrate their POC to experts and Investors.
  - The event was presided by our Hon'ble Chancellor: Dr. P Shyama Raju, Vice Chancellor: Dr. S. Y. Kulkarni, Registrar: Dr. Dhanamjaya, Advisor: Dr. Talwar, Director of UIIC: Dr. Kirankumari Patil and directors of various schools of REVA University along with incubates. Two companies that were incubated under REVA NEST participated in the event. Skykrafts Aerospace Technologies Pvt. Ltd. demonstrated their product (Drones for agricultural usage) and Dhanaina Technologies Pvt. Ltd. pitched their product (An enterprise resource planning software, Gettoil)

## 5 Trends in Mechanical Engineering for 2020

### 3D Printing

- Also known as Additive Manufacturing, 3D printing is a complex process where an object's model is created using CAD software – a detailed object modelling software.
- The object then needs to be saved in a STL (Standard Triangular Language) format which allows the designed object to be 'sliced' into ultra-thin layers.
- When transferred to the 3D printing machine, these layers are then printed in a formation of fine plastic layers, each layer bonded to the layer preceding it to create precise shapes.
- Mechanical engineers have designed objects for 3D printing that have made huge improvements towards mankind, including prosthetic limbs, artwork for the blind and edible objects.

## 5 Trends in Mechanical Engineering for 2020

### Internet of Things (IoT)

- The Internet of Things (IoT) is a system of interrelated computing devices or machines which have been provided with unique identifiers (UIDs) and have the ability to transfer data over a network without needing human-to-human or human-to-computer interaction.
- A 'thing' in the IoT can be a person, animal or object, for example; a human with a heart monitor implant, an animal with a biochip transponder, or even an automobile which has built in sensors to alert the driver of any changes to the vehicle, such as low tyre pressure. These 'things' become part of the IoT when they have been assigned an IP address that can transfer data over a network.

14 October 2020

We would like to thank our Honorable Chancellor Dr. P. Shyama Raju Sir for providing all facility and supporting to organize such events. We also thank Vice Chancellor Dr. K. Mallikharjuna Babu, Registrar Dr. M. Dhanamjaya, Dean, Placement, Training, and Planning Dr. N. Ramesh. We would like to thank Dr. K S Narayana Swamy sir, Director, and also Dr. Mahesh L, Assistant Director, School of Mechanical Engineering, for providing all the facilities, support and encouragement towards organizing the sessions. We also thank to Dr. Kiran Kumari Patil, Director, University Industry Interaction Center, for the involvement in taking up and organizing the Program.

We thank the coordinators and all the staff members involved for the successful conduction of the session

**Coordinators:**
