SDG-17

17 PARTNERSHIPS FOR THE GOALS

Strengthen the means of implementation
and revitalise the Global Partnership for
Sustainable Development

Chancellor's Message

REVA University believes in revitalising the global partnership for sustainable development. It requires partnership between governments, the private sector, and civil society. REVA has a strategic centre named REVA NEST, which is committed to working as a catalyst for promoting partnership among startups and public/private sectors thereby developing the technical manpower for socio-economic development.

AT REVA, we ensure to promote activities related to startups, innovation, and technology by organising several training programmes, awareness talks, lectures and social outreach programmes. As a Social Impact University, we have realised that it is necessary to promote the development, transfer and dissemination of environmentally sound technologies so that it bridges the gap that exists in the world and communities at large. These are done through a series of REVA NEST Incubates activities, entrepreneurship and innovation programmes, among others. By organising such events, REVA ensures that the SDG theme of Partnership for the Goals is focused on and ensures that action plans are made in alignment with SDG.

Dr. P. Shyama Raju
Chancellor, REVA University

Pro Chancellor's Message

It is a proud moment for students and staff at REVA University as we have made a commitment to keep pace with implementing the United Nations Sustainable Development Goals. As a Social Impact University, we have introduced a number of key projects and policies in order to accomplish these SDGs. And I cannot be but thrilled to note that the dossier we have created for each of these SDGs is a testimony to our hard work and determination on how we have evolved as a Higher Educational Institution.

At REVA, we have carefully and thoughtfully planned activities related to each SDG. Be it gender equity programmes or charity events or heritage workshops or activities related to law and justice, or even Industry partnership and innovation programmes, we have encouraged close ties between communities around us, which in turn have a transformative impact on societal advancement.

Let's keep the momentum going and use this opportunity of aligning with SDGs as a potent tool to empower people, thereby liberating their minds and ultimately liberating society.

I wish the team all the best!

Best wishes,

Umesh S Raju
Pro Chancellor,
REVA University

Vice Chancellor's Message

REVA is one of the few Multidisciplinary Universities in the country which has adopted the SDG goals as part of the journey towards emerging as a Social Impact University. In my opinion, the journey has been a fulfilling one. As part of SDGs, we are committed to global challenges related to eradicating extreme poverty, putting an end to hunger and promoting inclusive and sustainable economic growth, full and productive employment, and decent work. The journey doesn't end there. We are also working to promote peaceful, inclusive societies, access to justice, and the creation of effective, accountable, and inclusive institutions.

By thoughtfully planning the activities, we have curated this dossier that is an example of our hard work and determination. I congratulate the team for all their efforts in ensuring that REVA contributes to the larger goal of betterment and a humane vision of higher education. We believe that by doing so we create a society that is committed to sustainable development and ultimately the improvement of the community and society.

I extend my best wishes to the team.

Best regards,

Dr M Dhanamjaya
Vice Chancellor,
REVA University

How REVA Aligns with SDG 17

Sustainable Development Goal 17 is about Partnership for the Goals. It is meant to strengthen the means of implementation and revitalise the global partnership for sustainable development. SDG 17 refers to the need for non-hegemonic and fair cross-sector and cross-country collaborations in pursuit of all the goals by the year 2030. It is a call for countries to align with policies. REVA University believes in building strategies that support in maintaining, developing, and enhancing partnerships both internally and externally.

As part of this, REVA has more than 64 startups under REVA NEST in different sectors that aligns with SDG 17. By supporting this objective, REVA connects constructively with outside stakeholders, ensuring a beneficial effect on the accomplishment of these SDGs. REVA has organised a number of partnership-focused strategies with various industries and businesses to achieve these goals.
