

## Event Report

**Event Name:** *Firefighting Training Session for the non-teaching staff of REVA University*

**Date:** 10<sup>th</sup> July 2025

**Time:** 11:00 AM onwards

**Venue:** Science Block, REVA University, Bengaluru

**Organized by:** School of Applied Sciences and Allied Health Sciences

In association with the Outreach and Extension Wing

**Supported by:** Fire Engine Police, Yelahanka

### 1. Introduction

The School of Applied Sciences and Allied Health Sciences, in collaboration with the Outreach and Extension Wing, organized a Firefighting Training Session for the non-teaching staff of REVA University on 10th July 2025. This practical orientation was conducted with the support and expertise of the Fire Engine Police, Yelahanka Division. The session aimed to raise awareness and build practical knowledge in fire safety, emergency response, and prevention measures.

The training was attended by more than 38 non-teaching staff members from various departments. The fire department officials demonstrated the use of fire extinguishers, explained different fire types, and conducted mock drills on evacuation and first response during emergencies. Participants actively engaged in hands-on exercises under the guidance of the fire officers.

### 2. Objective of the Survey:

The primary purpose of the Firefighting Training Session was to equip non-teaching staff with essential fire safety knowledge and practical skills to effectively respond to fire-related emergencies within the university premises. This initiative aimed to enhance the overall preparedness, awareness, and resilience of the university community in alignment with safety protocols and disaster management practices.

By fostering a proactive safety culture, the session also aimed to reduce the risk of fire accidents, minimize property damage, and protect human lives, while reinforcing the importance of collaboration between the institution and emergency response agencies such as the Yelahanka Fire Engine Police.

- To create awareness among non-teaching staff about fire hazards and potential risks in the workplace.
- To provide hands-on training in the proper use of firefighting equipment such as extinguishers, fire hoses, and alarms.
- To educate participants on different types of fires and appropriate methods to control each type.
- To train staff in emergency response procedures, including evacuation techniques and rescue operations.
- To build confidence in handling real-time fire incidents until professional help arrives.
- To promote a culture of safety and preparedness across the university.
- To strengthen collaboration with local emergency services such as the Yelahanka Fire Engine Police.
- To contribute to SDGs by ensuring a safe, healthy, and resilient institutional environment

### **3. Training Area:**

Science Block , REVA University

### **4. Instructions to Staff:**

#### **➤ Report on Time:**

- Assemble at the designated venue by **11:00 AM** sharp for attendance and briefing.

#### **➤ Dress Appropriately:**

- Wear **comfortable clothing and closed-toe footwear** suitable for practical exercises and drills.

#### **➤ Carry ID Card:**

- University ID cards must be worn for identification and verification purposes.

#### **➤ Active Participation:**

- Engage fully in the demonstrations and hands-on sessions.
- Listen carefully to the instructions given by fire safety officers.

#### **➤ Mobile Phones:**

- Keep mobile phones on silent mode. Avoid using them during demonstrations.

#### **➤ Follow Safety Guidelines:**

- Do not attempt to operate any equipment unless instructed.
- Maintain a safe distance from active fire demonstrations.
- **Ask Questions:**
  - Feel free to clarify doubts or ask questions during the Q&A session.
- **Maintain Discipline:**
  - Follow the directions of coordinators and fire personnel at all times.
- **Health Considerations:**
  - Inform the organizers in advance if you have any medical conditions or mobility concerns.
- **Feedback Submission:**
  - Provide feedback at the end of the session to help improve future safety training programs.

## **5. Alignment with Sustainable Development Goals (SDGs):**

This initiative directly contributes to:

This initiative aligns with **SDG Goal 3: Good Health and Well-being** and **SDG Goal 11: Sustainable Cities and Communities**:

- **SDG 3:** By promoting occupational health and safety, the training ensures well-being at the workplace.
- **SDG 11:** Enhancing disaster preparedness and resilience among staff contributes to building a safer institutional environment.

## **6. Conclusion:**

The **Firefighting Training Session** conducted on **10th July 2025** for non-teaching staff was a significant step towards enhancing the **safety awareness and emergency preparedness** within REVA University. With the expert guidance of the **Yelahanka Fire Engine Police**, participants gained valuable practical knowledge and confidence in handling fire emergencies effectively.

The session not only strengthened the safety culture on campus but also reinforced the university's commitment to ensuring a **secure and resilient work environment**. By aligning with the **Sustainable Development Goals (SDG 3 & SDG 11)**, this initiative emphasized the importance of health, well-being, and sustainable safety practices in educational institutions.

The university extends sincere appreciation to all participants and trainers for their enthusiastic involvement and support in making the session a success.

## **7. Training Outcome**

- Enhanced awareness of fire hazards in the workplace.
- Hands-on training in operating fire extinguishers and hose reels.
- Understanding of emergency evacuation protocols.
- Improved readiness and confidence to act during fire incidents.
- Strengthened collaboration between university staff and local emergency services.

## 9. Participant feedback

- **Chaya B G (Agricultural Engineering):** “The session was practical and insightful. A must for all staff.”
- **Revathi N (Administration):** “I feel more confident and capable now. Thanks to the trainers for their patience.”
- **Sangeetha A (Applied Sciences – Chemistry):** “First-hand experience with fire extinguishers was very valuable.”
- **V Karthik (ECE):** “This type of training should be made compulsory every year.”
- **Lakshmipathi R (Civil Engineering):** “Excellent session – very informative and timely.”
